22-26 February, 2022

**Centre for Gender Studies and Development
NATIONAL INSTITUTE OF RURALDEVELOPMENT &
PANCHAYATI RAJ
Rajendranagar, Hyderabad – 500 030
&
TSIPARD**

Need

Children grow, develop & learn throughout their lives from birth & infancy to adulthood. The child's development can be measured through social, physical & cognitive developmental milestones. If children fail to develop properly, they may be unable to reach their full potential. The intent of early child interventions is to lay a foundation in conjunction with the family and society to support infants as they grow & mature into healthy individuals. A healthy status means achieving the best possible outcome for a child in physical, mental & social functioning.

Child Responsive Governance has become a key strategy of the Government of India to achieve equality for children in opportunities, capacities and outcomes across the nation. It has been widely recognized that governance has a critical role to play in minimizing gaps in social and economic indicators of child development in both rural and urban areas. In the context of rural populace, the Panchayati Raj Institution is a doorstep institution which has direct bearing on people's overall wellbeing. Children being important part of the population, it is critical to focus on making children equal participants and beneficiaries of various programmes and schemes. It is necessary therefore to build capacities of Government officials on Child Responsive Governance so that they are able to guide and support Panchayats in mainstreaming children in all aspects of governance.

This Training would enable such capacity building and help in building understanding of concepts and operational strategies for Child Responsive Governance.

Programme Objectives

- To familiarize the participants with the concept and need for Child Responsive Governance
- To generate understanding among participants about the key strategies for Child Responsive Governance.
- To give exposure to participants about the Best Practices in the context of Child Responsive Governance.
