About the training programme:

A preponderant majority of rural population are now struggling for a sustainable livelihood opportunity during the post Covid-19 pandemic and the subsequent lockdown. In rural areas the livelihood opportunities are not only shrinking but also unsustainable. Creation of livelihood avenues in massive number and ensuring their sustainability will be crucial to address the problem of poverty and inequality in rural areas. Lack of entrepreneurial skill especially among rural youth, women and marginalized communities is one of the most important reasons for this situation. There is an urgent need to infuse entrepreneurship spirit among rural youth undertaking awareness, capacity building, hand-holding programmes and imparting improved technologies in the rural areas. Achieving economic empowerment through promotion of entrepreneurship, specifically in the current situation where restoration and creation of alternate livelihood is very important for vulnerable population. In this context, the said training programme has been designed to equip and empower the rural youth and women with entrepreneurial skills, knowledge and approach to start a new sustainable entrepreneurial venture and/or scale up the existing ones. After the programme, the participants will be able to promote and guide rural people into successful entrepreneurs. The training programme will also help in understanding nuances of entrepreneurship development such as mentoring and handholding, packaging, financial and marketing linkages.

Key objectives of the programme:

- To provide support identifying sustainable livelihood opportunities in rural areas;
- To enhance the entrepreneurial skills among rural youth, women and marginalized communities;
- To develop strategies towards sustainable livelihood ventures on a community approach;
- To provide hands-on training on select sustainable entrepreneurial projects/models;
